

How to generate the file iTs

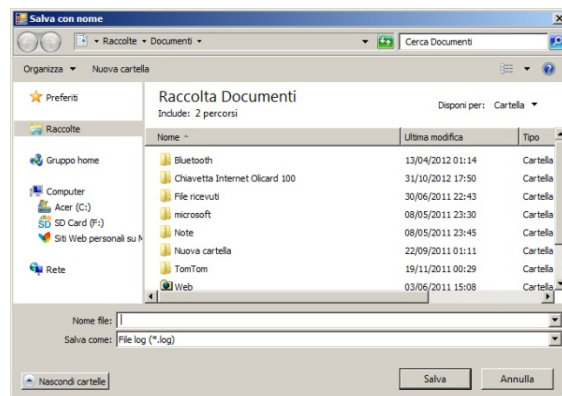

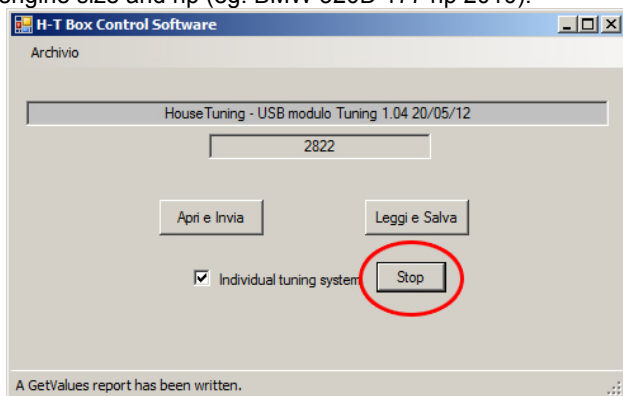

To activate the system iTs select the check box at the bottom left, then when the engine is at minimum, start reading the data by pressing the **START** button.

Wait five seconds at idle speed motor, and then drive the vehicle, pulling first gear at full revs.

Press the **STOP** button.

After pressing the **STOP** button, it will open a new window, nominate the file uniquely with the name of the vehicle and engine size and hp (eg: BMW 320D 177 hp 2010).

Read & write maps in CR3 iTs

Read & write maps in CR3 iTs is very simple:
Press "Apri e invia" to write maps.
Press "Leggi e salva" to save maps stored in CR3 iTs

The first and second field show two distinct information

- First field> **Tuningbox House Tuning connected to PC.**
- Second field> CR3 iTs serial number stored in processor in this case for example: 2822
